1. What is your connection or interest in this case? * For example, are you a customer of the Company that is the subject of this pending proceeding? (This section must be completed. Attach additional information if necessary.)

I am a Duke Energy customer. Rates have been increased during my four years of residence in South Carolina.

2. Please give a concise statement of your protest. * (This section must be completed. Attach additional information if necessary.)

I protest yet another raise on energy prices. On the news, they say that Duke Energy needs to increase rates in order to pay for a building. When most of us plan for an additional home or building, we include that within our budget. Getting their customers to pay increased rates due to their lack of planning should not be rewarded. I definitely protest any increased costs for energy being supported by their customers.

3. Do you wish to make an appearance at a hearing in this proceeding, if scheduled, and offer sworn testimony? *
(This section should be completed.)

I travel frequently for work and will probably not be able to attend, but I believe strongly that Duke Energy needs to work within their budget and be stopped on increasing their customer rates.
